How easy is it to get your web site to the [top of the search](#) ? With so many web sites available it can feel like an incredibly daunting task – but there are a number of key elements that you can include to assist you. When we don't understand a particular subject the most common thing for us to do is to ask a question. This is something that the vast majority of people will do when researching a subject – they will ask the internet a question! When we ask questions particularly of the internet we tend to use common and sometimes fairly basic words as this will give us a quick result.
